

I am in quarantine. I cannot even see my friends on my own soccer team.

I shouldn't have to dream about living a normal life, I should just live a normal life.

I'm not at school and I can't go to the pool due to this horrible quarantine routine !

I just want to go to school and play it like it's cool but when I finally go back I will act like a total fool.

I just want to live normally, not abnormally.

All this political crap must stop if we want to end this virus or else these problems will just lap.

Who thought a bat and a pig could start something this big and people treat it like a tiny little fig.

Lets all put this to an end is it really too much to comprehend.

Stop putting all your trust in politics and don't forget about Jesus the only one who can decide who puts this to an end once and for all so all y'all put your trust in Jesus and he will put this to an end.

Stop attacking each other and work together and put this all together and find out what is happening and end this forever.

Covid go away and find somewhere else to stay, don't stay here where you create a big tear when we start to cry because you take away the ones who shouldn't die.

I hope you liked my lines. I think they have really good rhymes and that was the last rhyme because I must go because it is that time.
